Objective

MCA student with hands-on experience in data analysis, SQL, Excel and Tableau dashboards through Tata Group and Deloitte Australia job simulations. Seeking a Business Analyst role to analyse business processes and data, support technology delivery with cross-functional teams, and recommend data-driven solutions.

Education

Master of Computer Applications (MCA) — **2025 – Present**
Galgotias College of Engineering and Technology, Greater Noida | *Full-time* — *CGPA: 7.0/10.0*

Bachelor of Computer Applications (BCA) — **2022 – 2025**
Integral University, Lucknow | *Full-time* — *CGPA: 7.6/10.0*

Class XII (CBSE) — **2022**
St Joseph School | *Full-time* — *66%*

Class X (CBSE) — **2020**
St Joseph School | *Full-time* — *73%*

Technical Skills

Data Analysis & BI: SQL, MS Excel, Tableau, Exploratory Data Analysis (EDA), Data Visualization, Reporting

Databases & Core Subjects: DBMS, SQL, Data Structures & Algorithms, Operating Systems, OOP

Languages: Python, C

Web Technologies: HTML5, CSS3, JavaScript (ES6+)

Frameworks & Libraries: Flask, FastAPI, Bootstrap

Tools & Platforms: Git, GitHub, VS Code, LeetCode, HackerRank

Data Analytics Experience

Tata Group – Data Analytics Job Simulation — **June 2025**
Forage Platform

- Completed a data analytics and business strategy simulation focused on AI-powered analysis
- Performed exploratory data analysis (EDA) to assess data quality and identify key risk indicators
- Applied predictive modeling concepts to analyse customer delinquency trends and support business decisions

Deloitte Australia – Data Analytics Job Simulation — **June 2025**
Forage Platform

- Completed tasks spanning data analysis, forensic technology, and business insight generation
- Built interactive Tableau dashboards to report and communicate complex data findings visually and clearly
- Analysed structured datasets in Excel to derive actionable, data-driven business recommendations

Projects

Personal Portfolio Website — **Live – GitHub**
Tech Stack: HTML5, CSS3, JavaScript

- Built a fully responsive portfolio website showcasing projects and skills with clean UI and smooth navigation
- Implemented mobile-first design principles ensuring cross-device compatibility
- Deployed live on Vercel/Netlify for public access

Student Management System — **GitHub**
Tech Stack: Python

- Developed a CLI-based application to manage student records with persistent file-based storage
- Implemented full CRUD operations using Python data structures with input validation and error handling
- Structured codebase with modular functions, improving readability and maintainability

Achievements & Activities

- Solved Data Structures & Algorithms problems on LeetCode and HackerRank
- Earned industry-recognised virtual experience certificates from Tata Group and Deloitte Australia via Forage
- Consistently exploring new tools and frameworks through self-directed learning and online platforms
